DATE OF INFORMATION (Date of data, or of change with source or conditions described in report above)

1954 and earlier

TYPE OF UNRECORDED INFORMATION

1. Nyiregyhaza, which is located north of Debrecen, is one of the strongest military points today in northeastern Hungary. Baracks compounds can be found in the western, southern and eastern outskirts of the town, which is the capital of Szabolcs-Szatmar county.
2. After World War II some reconstruction took place in Nyiregyhaza. The railway station was rebuilt, a tobacco warehouse, near the station, was enlarged and in 1953 construction started on a medium-sized factory to produce electric motors. It is not known whether production in this factory has actually begun. In 1950 construction also started on the so-called Moszkvai highway leading eastward. This highway, running through Gros-Apágy, is completed only as far as Hajtárka etc. Further construction is under way near Rohod-Elk. The western section is finished between Nyiregyhaza, Budaszentiházy, Tiszaújlak and Cserséty. In Cserséty the highway joins another completely modernized highway from Slovakia which passes the following localities on Hungarian soil: Satoraljaújhely, Sárospatak and Sárosvásár, leading further westward in the direction of Budapest.
3. North of Nyiregyhaza, in an area which is known as Sárosvásáriget, there is a civilian airport. The airfield is of grass-type and is a stop for flights between Budapest, Miskolc and Debrecen.

**WARNING:** This document contains information relating to the national defense which, if disclosed, could result in the identification of sources or methods of intelligence gathering, and thus, it is classified "Secret". It is to be controlled, stored, handled, transmitted, disposed of, and destroyed in accordance with the instructions of the Department of Defense.

The barracks are small and not more than one battalion is stationed there. The following buildings comprise the compound (see enclosures I and II):

25X1

- 1) Headquarters.
- 2) Soldiers' quarters in a two-story green building.
- 3) Soldiers' quarters in a four-story red-brick building.
- 4) Soldiers' mess in a red-brick building.
- 5) Food warehouse in a newly-constructed building.
- 6) Garages and workshops.
- 7) Blacksmith.
- 8) Horse stables.
- 9) Ammunition stores.
- 10) Stables and anti-tank gun hangars.
- 11) Guard house.
- 12) Ground for drill training.
- 13) Well for drinking water.

25X1

B) New Military barracks [redacted] constructed in 1951-1952, are located west of the railway station (see enclosure II). The artillery regiment, the head of the division and his staff are stationed there. A description of the individual buildings is as follows: (see enclosure III)

- 1) Commanding officer's headquarters.
- 2) Staff of division.
- 3) Staff of division.
- 4) Two one-story barracks housing the divisional headquarters.
- 5) Division clothing warehouse.
- 6) Division garage.
- 7) Division truck repair workshop.
- 8) Division horse stables.
- 9) Artillery regiment headquarters [redacted]
- 10) Two one-story buildings where artillery regiment is quartered.
- 11) Bath.
- 12) Regimental motor pool in three barracks.
- 13) Regimental repair workshop for armament.
- 14) Regimental fuel warehouse.
- 5) Regimental gun hanger.
- 6) Two buildings - truck garage and fuel warehouse.
- 7) Warehouse.
- 18) Food warehouse.

25X1

25X1

19) Arrest

20) Guard houses near main entrance.

21) Officers' billets.

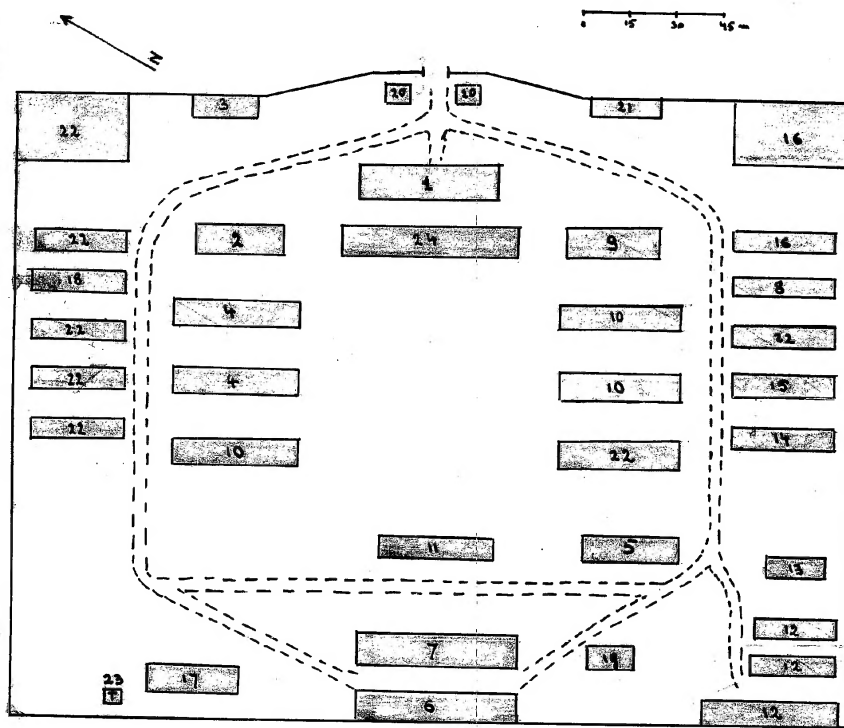

22) Empty buildings, which were damaged and not repaired.

23) Transformer station.

C) Approximately two kilometers west of Nyiregyhaza two large military barracks compounds were constructed in 1952-1953 on both sides of the highway.

In one a cavalry unit is stationed and in the other a motorized unit.
